21. Rest, Ice, Compress, and Elevate
22. Skateboarders should wear helmets to protect their heads. They should wear wrist guards, elbow pads, and kneepads to prevent scratches and broken bones.
23. (1) Draw a floor plan with exits, smoke alarms, and an outside meeting place. (2) Make sure all family members know the escape routes and the sound of the smoke alarm. (3) Keep a whistle and a flashlight next to each bed. (4) Try out whistles to alert family members during a fire. (5) Practice the escape plan at least twice a year.
24. Possible answers: permanent items: blankets, soap, matches, candles, flashlight, radio, money, and important papers; replaced items: three days' worth of drinking water, canned food, and extra batteries
25. Possible answer: Call 911. Tell the operator that a house is on fire and that there may be people in the house. Give the address of the fire and the names of the nearest cross streets. Tell the operator that there is black smoke and flames. Say that the wind seems to be spreading the fire. While talking to the 911 operator, call out for help so the people in the houses can be warned.
